

## **CAGP PSYCHIATRY RESIDENT AWARD**

The Canadian Academy of Geriatric Psychiatry will be offering 3 awards valued at \$1,000 to help support a resident enrolled in a Canadian Psychiatry Residency Program that wishes to develop his or her interest in geriatric psychiatry.

### **Award**

The purpose of this award is to promote the development of future Canadian psychiatrists with a special interest in geriatric psychiatry.

The Award provides residents with the financial resources to attend the Annual Scientific Meeting (ASM) of the Canadian Academy of Geriatric Psychiatry and to network with members of the CAGP.

The successful applicant will be asked to prepare a poster presentation, either briefly outlining a proposal or presenting results of scholarly activity at the 2018 CAGP-CCSMH Annual Scientific Meeting to be held in Halifax, Nova Scotia, October 12-13, 2018.

Following attendance at the ASM, if the full amount of the award has not been used, the resident may elect to use the remainder to support activities which promote his/her knowledge skills and experience in geriatric psychiatry.

There are a total of 3 CAGP Psychiatry Resident Awards available to be allocated in 2018.

### **Applicant Requirements**

Psychiatry residents accepted or enrolled in PGY-2, PGY-3, PGY-4 or PGY-5 of a postgraduate psychiatry training program in Canada as of July 2018, are a current CAGP Affiliate-In-Training member, and who have not been accepted into a geriatric psychiatry sub-specialty training program. If already accepted into a sub-specialty training program then we encourage the person to apply for the CAGP Geriatric Psychiatry Sub-Specialty Resident Award.

Please note that Affiliate-in-Training membership with the CAGP is FREE and is available to medical students or residents with an interest in geriatric psychiatry (who are not enrolled in a sub-specialty program). Click [here](#) for more details.

This award is not renewable and can only be awarded once to a given recipient.

### **Application**

The application should include:

1. Letter by applicant detailing interest, previous experience in geriatric psychiatry, and future career goals.

2. An outline of a proposed research project or other scholarly activity in geriatric psychiatry.
3. Curriculum vitae.
4. Letters of reference from the applicant's Postgraduate Director and Geriatric Psychiatry Supervisor or Faculty Member/Head of Division of Geriatric Psychiatry who is a member of the CAGP.

**Application Due: Friday April 27, 2018**

Please submit your completed application package electronically to [cagp@secretariatcentral.com](mailto:cagp@secretariatcentral.com), with all sections clearly marked to the CAGP Awards Committee.
