

Dr. Sarab Preet

Sarab Preet [AKA Robbie] Dosanjh is currently a fifth year Psychiatry Resident at the University of Manitoba. Next year he will be moving west to pursue training in Geriatric Psychiatry at the University of British Columbia. Robbie is not a stranger to BC. He grew up in a small town nestled away in the Selkirk Mountains called Castlegar. He has been known to say pentagrams instead of pentagons when doing the Mini mental Status Examination. Something he is working on to change before starting his subspecialty.
